Coordinator is Piyawasin Phone 0939957802 Facebook Piyawasin Pikror-ngarn

Details about Your Group Project

A mobile application for Android smartphones. The application will be able to ...

1. Scan QR code and display information of certain things, for example: A bird pattern's QR would display its name, description, and from what substance it was created from.

2. Display general information of the temple, and possibly the map of the temple.

3. Offer quiz about the temple. (with answers)

4. Display quiz score.
